

## 511 IAC 7-41-10 Other health impairment

“Other health impairment” means having limited strength, vitality, or alertness, including a heightened alertness to environmental stimuli, that results in limited alertness with respect to the educational environment that is due to chronic or acute health problems that adversely affects a student’s education performance. This may include, but is not limited to, the following conditions:

- (A) asthma;
- (B) attention deficit disorder or attention deficit hyperactivity disorder;
- (C) diabetes;
- (D) epilepsy;
- (E) a heart condition;
- (F) hemophilia;
- (G) lead poisoning;
- (H) leukemia;
- (I) nephritis;
- (J) rheumatic fever;
- (K) sickle cell anemia; and
- (L) Tourette syndrome; and

Eligibility for special education as a student as other health impaired shall be determined by the student's CCC. This determination shall be based on the multidisciplinary team's educational evaluation report which includes the following:

- (1) An assessment of the following:
  - (A) Current academic achievement as defined at 511 IAC 7-32-2.
  - (B) Functional skills or adaptive behavior across various environments from multiple sources.
- (2) A social and developmental history that may include, but is not limited to, the following:
  - (A) Communication skills.
  - (B) Social interaction skills.
  - (C) Motor skills.
  - (D) Responses to sensory experiences.
  - (E) Relevant family and environmental information.
- (3) A systematic observation of the student across various environments.
- (4) Available medical information that is educationally relevant.
- (5) Any other assessments and information, collected prior to referral or during the educational evaluation, necessary to:
  - (A) determine eligibility for special education and related services; and
  - (B) inform the student's CCC of the student's special education and related services needs.
